Source CV revised October 28, 2026 | Public version prepared November 9, 2026

Education

EdD, Public Health Policy

Nebraska Methodist College · Conferred July 31, 2026

- Doctoral scholarly project: Improving Radiation Safety Compliance Through Standardized In-Person Safety Training for University X-ray Operators.

MS, Health Physics

Illinois Institute of Technology · Conferred December 17, 2022

BS, Nuclear Engineering Technology

Excelsior College · Conferred March 15, 2019

Earlier academic records use the surname Hewett.

Teaching appointment

Adjunct Professor

Orangeburg-Calhoun Technical College · 2024–present

- Develop and deliver technical instruction in classroom and learning management system environments using presentations, demonstrations, and applied learning activities.
- Connect technical concepts with advanced manufacturing applications.
- Evaluate student performance, provide feedback, and align instruction and assessments with established course outcomes.

Selected OCtech teaching

Orangeburg-Calhoun Technical College

Confirmed teaching record through Fall 2026.

- IMT-210 · Basic Industrial Skills I · Fall 2024, Fall 2025, Fall 2026.
- IMT-131 · Hydraulics and Pneumatics · Fall 2024, Fall 2025, Fall 2026.
- EET-113 · Electrical Circuits I · Fall 2024, Fall 2025.
- EEM-140 · National Electrical Code · Spring 2025.
- EGR-130 · Engr. Tech. App. & Prog. · Spring 2026, Fall 2026.

Professional appointments

Associate Radiation Safety Officer

University of South Carolina · 2024–present

- Develop and deliver radiation safety education and live webinar training for faculty, staff, students, researchers, and technical personnel.
- Use presentations, digital resources, and audience engagement strategies in virtual learning sessions.
- Collaborate with principal investigators on research protocol review and radiation and laser hazard evaluation.

Nuclear Medical Science Officer

United States Army · 2022–24

- Health physics education and operational radiation safety practice.

Co-Founder and Radiation Safety Subject-Matter Expert

CurieLedger · 2026–present

- Co-founded an early-stage radiation safety recordkeeping software company.
- Contribute radiation safety subject-matter expertise to educational resources and the development of dashboards, metrics, and digital records.

Professional service

Secretary, Radiation Safety Committee

University of South Carolina · 2024–present

- Committee administration.

Areas of preparation

Operational health physics; personnel dosimetry; radiation and laser hazard evaluation; research protocol review; public health policy; curriculum planning and evaluation; student assessment; classroom and webinar instruction; D2L Brightspace.

Professional disclosure

Christina co-founded CurieLedger, an early-stage radiation safety recordkeeping software company. Related academic work may create potential conflicts of interest requiring disclosure and institutional review.
